**To whom it may concern****Statement regarding EWOS compound Fish Feed****Feed ingredients from GM material**

Purchase of relevant feed ingredients is done on specification of GMO < 0.9%. A certificate of analysis including GMO analysis and/or documentation of an IP-programme follows raw material deliveries in question.

According to internal control plan, samples of fish feed including soya and raw material samples are analysed for verification (spot checks).

Enclosed results from 2009 - YTD.
